TILSETTING UTEN UTLYSING – PROFESSOR II

1. Generelt om bruk av professor II og tilsetting versus kalling

I et tidligere styremøte, 8. november 2005, ba styret "*...om å få seg forelagt en generell sak om bruk av professor II stillinger.*" Slik sak fikk styret seg forelagt til møte 13.12.05, og nedenfor gjengir vi saksforelegget.

"Professor II stillinger er en bistilling med inntil 20 % arbeidsplikt for den som tilsettes. Stillingen kan ikke inneholde forskningsdel, men ellers vil det være opp til fakultetet å bestemme hvordan arbeidsplikten skal tas ut. Det mest vanlige vil være undervisning og veiledning av avhandlingsskrivende, men også andre oppgaver kan tenkes. En kunne for eksempel bruke en professor II som ansvarlig for deler av internasjonaliseringsvirksomheten e.l.

Dekanus og fakultetsdirektør mener det er flere grunner til at fakultetet bør kunne knytte til seg professorer i bistilling, etter en konkret vurdering:

- *Dekning av undervisningsbehov – Fakultetet er underbemannet når det gjelder førstestillinger, og professorer i bistilling kan styrke undervisningen i masterstudiet på områder der det ikke er tilstrekkelig dekning blant de ansatte i ordinære stillinger. Jus er et profesjonsstudium og det må undervises i fag der det ikke til en hver tid vil være lærere ved fakultetet som driver forskning. De bør også kunne benyttes til undervisning i den kommende forskerskolen, d.v.s. doktorgradsopplæringen.*
- *Veiledningsbehov – Det samme argumentet som ovenfor kan brukes vedrørende veiledning, og da primært veiledning av doktorgradsstudenter, men også av mastergradsstudenter.*
- *Forskningsnettverk – Professorer, særlig fra utenlandske universiteter, bør kunne være instrumentelle i nettverkssammenheng når det gjelder å knytte fruktbare kontakter for fakultetets vitenskapelige ansatte, og da særlig de yngre. Det vil telle positivt for fakultetet å ha internasjonalt anerkjente fagpersoner tilknyttet fakultetet. En kan tenke seg at en del av arbeidsplikten for professor II med slike kontakter og evner kan nyttes til å skaffe kontakter, arrangere seminarer eller workshop med utenlandske deltakere.*
- *I sammenheng med dette vil en fremheve at professor II kan nyttes til å støtte utviklingen av nye faglige satsningsområder ved fakultetet, gjennom veiledning av stipendiater, undervisning og generell deltaking i oppbygging av et faglig miljø på vedkommende område.*

- *Professor II fra utenlandske universiteter vil også kunne bidra til internasjonalisering ved å bringe med seg andre fag- og forskningstradisjoner gjennom undervisning, veiledning og generell kontakt med kolleger ved fakultetet, på en annen måte enn en vil kunne få ved gjesteforelesere.*

Det blir gjerne innvendt mot tilsetting av professor II at en kan oppnå både undervisning og veiledning ved rene oppdrag. Dette er i og for seg riktig, men gitt at en får tak i personer som er interesserte i vårt fakultet, vil tilsetting som professor II skape et mer generelt ansvar for utviklingen av fakultetet og også en bedre mulighet for å kunne profilere fakultetet utad. Det bør likevel som utgangspunkt kreves at vedkommende antas å kunne tilføre fakultetet noe ut over ren undervisning og veiledning, for at det skal være aktuelt med tilsetting som professor II.

En professor II vil som nevnt ikke ha forskningstid betalt av vårt fakultet, slik at hele arbeidsplikten kan benyttes til undervisning og veiledning og eventuelt andre oppgaver. Dog tilkommer utgifter til reise og opphold.

Tilsettingsprosedyre. Utlysning versus kalling
Dekanus og fakultetsdirektør mener at de som tilsettes som professor II bør være anerkjente professorer, og gjerne fra utenlandske universiteter. I tillegg må det selvsagt være personer som må antas å kunne være av stor nytte for fakultetet i forhold til de ovennevnte punktene. Det må også være personer som har vist engasjement og interesse for vårt fakultet på en måte som gjør at det må antas at de vil gjøre en innsats for fakultetet ut over å holde pålagt undervisning, veiledning o.l. Det er gjerne slik at de beste kandidatene ikke ville være interesserte i å søke en utlyst stilling som professor II av eget initiativ. Hovedregelen bør derfor være at egnede kandidater identifiseres, forespørres, og deretter kalles uten utlysning. Dette er det gitt adgang til i forskrift til lov om statens tjenestemenn §2, pkt. 5:

"Når særlige grunner taler for det, kan styret i institusjoner som omfattes av lov om universiteter og høgskoler foreta tilsetting i undervisnings- og forskerstillinger uten forutgående kunngjøring."

Bruk av professor II er et tilskudd til det faglige miljøet og antallet professor II bør ikke være særlig høyt til en hver tid. Stillingene bør brukes strategisk i forhold til utvikling av undervisningstilbud eller kompetanseoppbygging innenfor prioriterte fagområder, internasjonalisering og nettverksbygging e.l. Rent individuelle samarbeidsrelasjoner mellom enkeltforskere ved vårt fakultet og vedkommende person, vil i seg selv ikke være grunnlag for tilsetting som professor II."

2. Tilsetting av Raymond Corrado som professor II uten utlysning

Vi viser til sak 46 A ovenfor om intensjonsavtale mellom Det juridiske fakultet og Kompetansesenter for Sikkerhets-, fengsels- og rettspsykiatri, Helseregion Vest (KSFR). Satsing på strafferettslig forskning er nedfelt i strategiplan for Det juridiske fakultet 2011-2015, vedtatt i styremøte 14. desember 2010. Denne satsingen er bakgrunn for et ønske om samarbeid mellom KSFR og Det juridiske fakultet for å bygge opp og videreutvikle en tverrfaglig kompetanse i strafferett/straffefullbyrdelse ved de to institusjonene.

Formålet med samarbeidet er å bygge opp et nasjonalt ledende fagmiljø på dette feltet, som også markerer seg internasjonalt gjennom forskning, formidling og undervisning.

Som et bidrag til dette samarbeidet vil det bli opprettet en professor II stilling knyttet til prosjektet "Strafferettens funksjonalitet" ved Det juridiske fakultet. Og som det framgår av samarbeidsavtalen vil denne stillingen i sin helhet bli finansiert gjennom kompetansesenteret

Dekan og fakultetsdirektør konstaterer at alle kulepunktene i det ovennevnte policydokumentet ivaretas ved tilsetting av Raymond Corrado som professor II:

- dekning av undervisningsbehov gjennom to nye engelskspråklig kurs på 10 ECTS
- veiledningsbehov gjennom stipendiater og 60 sp mastergradsskrivende studenter innen fagområdet
- forskningsnettverk og nettverksbygging
- bidra med erfaringer knyttet til oppbygging av et kompetansesenter i strafferett ved Det juridiske fakultet.

Tilsetting av professor II innenfor fagområdet strafferett/straffullbyrdelse vil således være i samsvar med fakultetets retningslinjer for tilsetting i slik stilling. Spørsmålet blir da om dette skal skje med eller uten utlysing.
Styret ved Universitetet i Bergen har delegert til fakultetene å foreta tilsetting i professorater. Dette gjelder også tilsetting av midlertidige professor II-stillinger – uten utlysing. Vilkårene for slik tilsetting er formulert i forskrift til lov om statens tjenestemenn § 2. pkt. 5:

"Når særlige grunner taler for det, kan styret i institusjoner som omfattes av lov om universiteter og høgskoler foreta tilsetting i undervisnings- og forskerstillinger uten forutgående kunngjøring. Slik tilsetting kan ikke foretas hvis mer enn ett medlem av styret motsetter seg dette[1]."

[1] I saker hvor det ikke foreligger enstemmighet i fakultetsstyret har mindretallet anledning til å bringe saken inn for Universitetsstyret for endelig avgjørelse, jfr. universitets- og høgskoleloven § 33 nr. 1.

Vilkåret for å avvike fra hovedregelen om utlysing er altså at "særlige grunner taler for det". I henhold til praksis anses særlige grunner å foreligge dersom det er grunn til å tro at det ikke finnes noen med tilsvarende kompetanse som kunne være aktuelle søkere dersom professoratet ble lyst ut.

I motsetning til tilsetting som professor hvor universitetsstyret er svært restriktive til kalling skjer de fleste tilsettinger i professor II-stillinger ut fra kalling. Men spørsmålet om kalling (tilsetting etter utlysing) må selvsagt vurderes konkret i forkant av hver sak.

Professor Raymond Corrado er en ledende internasjonal kriminolog. Han har svært bred forskningserfaring innen sitt fag, og har en omfattende rekke av publikasjoner innen kriminologi (se vedlagt CV).

Dekanen har ut fra konsultasjoner med personer med særlig kjennskap til fagområdet og ut fra egen vurdering kommet til at professor Ray Corrado bør tilsettes i denne stillingen uten forutgående utlysning. Han har vært tilsatt som professor ved School of Criminology, Simon Fraser University, Burnaby, Canada siden 1990 og anses som en av de ledende internasjonale kriminologer. Dekan og fakultetsdirektør finner det således usannsynlig at en utlysing vil kunne frembringe andre aktuelle kandidater på et slikt faglig nivå innenfor det fagområdet fakultetet nå skal bygge opp.

Curriculum Vitae for Raymond Corrado som følger vedlagt (vedlegg 1) inneholder opplysninger om akademiske grader, nåværende og tidligere tilsettingsforhold, øvrig utdannelse, tillitsverv, medlem av utvalg etc., undervisningserfaring og publikasjonsliste.

Saken legges frem for fakultetsstyret med følgende forslag til
