## SATURDAY 3 JULY AND SUNDAY 4 JULY

Departure days

# Bergen Summer Research School

> Global Development Challenges

Global Health in Bio-medical, Social and Cultural perspectives  
Bergen, 21 June - 2 July 2010

**In collaboration with Bergen Chamber of Commerce and Industry:  
Open debate meeting, 25th June, 11.30–14.30  
Grand Selskapslokaler, Ole Bulls plass**

## **How should your health care be provided?**

An effective and efficient health care system is a key to global achievements in health. Without clear payment mechanisms and policies for spending, the disadvantaged poor are often left out. The objective of this seminar is to give an introduction to some topics in global health economics, and discuss implications for health policy and management.

**Welcome** by Managing Director Marit Warncke and BSRS head Kjersti Fløttum  
**Introductory presentation:** Bjarne Robberstad, University of Bergen

### **Who should pay for your health care?**

*John Cairns, London School of Hygiene and Tropical Medicine*

Health care funding: Alternative mechanisms, how they are applied globally, and a discussion of weaknesses and strengths of alternative payment schemes.

### **Lunch**

### **How should your health care provider be paid?**

*Julie Riise Kolstad, University of Bergen, Christian Michelsen Institute*

Micro-incentives: How may alternative incentives affect the accessibility and quality of care?  
Will generous salaries do the trick?

### **Whose health care should they prioritize?**

*Bjarne Robberstad, University of Bergen*

Economic evaluation: A powerful tool for setting health care priorities, but methodological and practical barriers limit its use by decision makers.

### **Summing up**

*Jan Erik Askildsen, University of Bergen, Uni Research, Rokkansenteret*

### **Discussion**

## Bergen Summer Research School

> Global Development Challenges

Global Health in Bio-medical, Social and Cultural perspectives  
Bergen, 21 June - 2 July 2010

Open debate meeting, 29th June, 11.30–13.00  
Haukeland University Hospital, Auditorium

### **Global Health, Uncertainty and Complexity**

Convenor: Professor Roger Strand,  
Centre for the Study of the Sciences and the Humanities  
University of Bergen (UiB)

What is the right thing to do? How can we know? And who is that "we" who know and who define what is right?

In this roundtable we would like to invite the participants to engage in an open and critical discussion of aspects around global health that are difficult, contradictory or paradoxical.

Speakers:

Astrid Blystad, Dept of Public Health and Primary Health Care, Centre for International Health, UiB

Ole F. Norheim, Dept of Public Health and Primary Health, UiB

Roger Strand, Centre for the Study of the Sciences and the Humanities, UiB

## Bergen Summer Research School

> Global Development Challenges

Global Health in Bio-medical, Social and Cultural perspectives  
Bergen, 21 June - 2 July 2010

Open debate meeting, 30th June, 18.00-21.00, Faculty of Law, Auditorium 1

### **Meeting places: Forging a new academia for integral global health**

Convenor: Professor Asuncion Lera St.Clair, University of Bergen

Global health cannot be seen in isolation with other fundamental global challenges, especially those that frame the Bergen Summer Research School: global poverty, environmental and energy challenges, and climate change, and matters related to culture, norms, language, histories, values and belief systems. However, disciplinary boundaries, cognitive differences, separate professional careers and institutional interests, or promotion incentives tend to lead to a disconnection between scholars. As the world becomes more interconnected and challenges global in scope, universities and higher education institutions are poorly prepared for addressing these issues. This roundtable aims to debate the synergetic and positive contributions of multidisciplinary dialogue with a concrete focus on what are the contributions of each different course in this year's BSRS towards an integral perspective on global health.

#### Speakers:

\*Knut Fylkesnes, Professor, Centre for International Health, UiB

Course leader, *Severe HIV epidemics and multidisciplinary research challenges in prevention*

\*Nefissa Naguib, Senior Researcher, Uni Global

Course leader, *Health and Recovery in times of disruption: Anthropological and historical perspectives*

\*Aamir Khan, Center for Health Informatics, Interactive Research & Development & Indus Hospital, Karachi, Pakistan

Course leader, *Electronic mobile data in global health research: a hands-on course*

LAW FACULTY, AUDITORIUM 1

*Information Management for Knowledge Creation I  
Research Dissemination in a Global Context.  
Copyright Issues in Publishing.*

The aims of this plenary session are that the participants will

- gain a deeper understanding of author rights
- gain a deeper understanding of using others' work in research and publishing
- learn about the peer review process
- learn about Open Access-publishing and self-archiving.
- learn about ranking methods by means of bibliometric data

**Key words:**

- Copyrights
- Using others' intellectual work
- Plagiarism
- Citation metrics
- Open Access
- Self archiving

For full information about the library sessions please see 'My space'

# LIBRARY SESSIONS, WORKSHOPS

THURSDAY 24TH JUNE  
09:00–12:00 AT VARIOUS VENUES

Students will be informed and guided in groups to different faculty libraries

## *Information Management for Knowledge Creation II Tracing Research Information*

In this workshop the participants will have access to a personal computer in order to perform exercises and information searches that are relevant to your work.

The workshop aims are that the participants will

- gain a deeper understanding of information search and information retrieval
- be able to build a search strategy and recognise and take advantage of the differences between the various kinds of databases available through libraries
- find information and download articles relevant to your work
- manage personal information, e.g. save searches, keep track of references and create RSS feeds and other alerts
- utilise the ISI WoS ranking methods

### **Key words:**

- Databases
- Search strategy
- Impact factor, Citation Report

**NB!** When you register at the BSRS Monday 21st June, you will be asked to sign up for the workshop. The workshop is strongly recommended by the BSRS-community.

For full information about the library sessions please see 'My space'
