

The biology block has newly renovated locker rooms for commuters who want to change/shower after cycling/running/run-swimming to work. These rooms have lockers that can be padlocked. At the end of each year, the lockers must be emptied and padlocks removed. This is to avoid lockers being “occupied” without being in use.

There is still some ventilation that has not been completed, and drying cabinets are yet to be installed.

Here is where you can find the changing rooms:

Look for “Herre – Garderobe” (men’s) and “Kvinne – Garderobe” (women’s):
