Guide to the use of University Library eBooks

Why use eBooks?

EBooks are available online whenever and wherever you want.

No waiting lists or carrying of heavy books.

Who can use eBooks?

Everyone affiliated to the University of Bergen (FEIDE access is necessary) and employees at Haukeland University Hospital at their working place.

How to find eBooks?

You can find all eBooks available for the University Library by searching in Oria.

How to use eBooks?

You can download particular chapters or the entire book. You can search in the text to find exactly what you are looking for, highlight important sections and write comments.

You can read eBooks on the computer, tablet, mobile as well as on many e-readers.

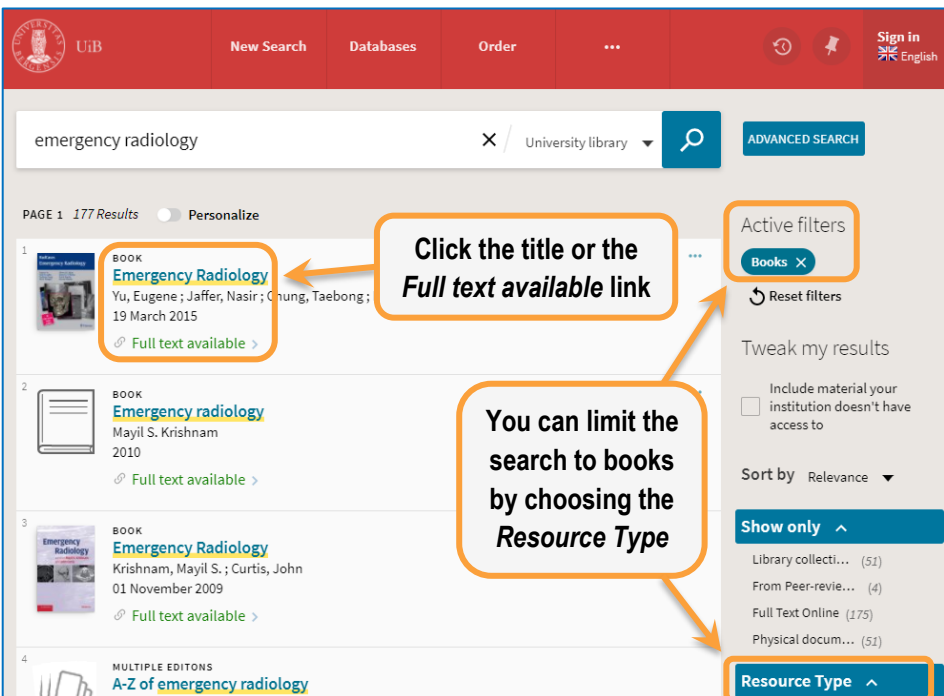

UNIVERSITY OF BERGEN
UNIVERSITY OF BERGEN LIBRARY

Start at the University Library's homepage: www.uib.no/en/ub

Search for topic, title, author, ...

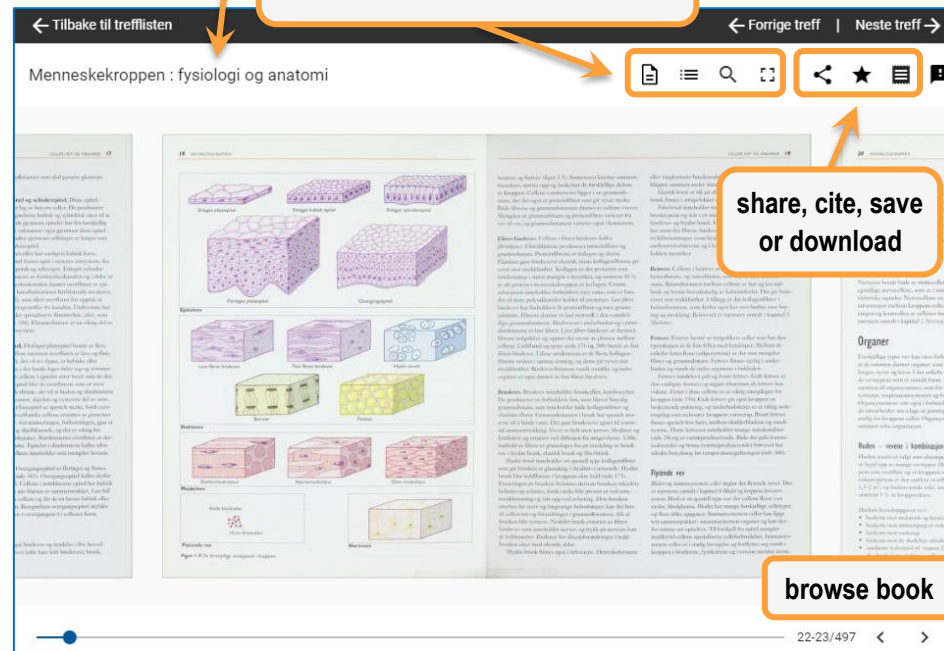

The National Library has digitalized a large amount of Norwegian books. Many are available for online reading and some as PDF download as well.

The full text link in Oria leads directly to the book in the National Library's online reader.

Choose viewing mode, search in the book or view the book's details

share, cite, save or download

browse book

Many different publishers and providers offer eBooks.

The web page design varies, but the functions are similar.

You can find all available eBooks in Oria (see page 3).

EBSCOhost

Search results for 'Fundamentals of Musculoskeletal Ultrasound: Expert Consult-Online'. The page shows the book title, author (Jacobson, Jon A.), and a 'Full text available' link. A callout box labeled 'EBSCOhost' points to the search bar area.

Elsevier ScienceDirect

Search results for 'Hunter's Tropical Medicine and Emerging Infectious Disease (Ninth Edition)'. The page shows the book cover, title, and a 'Download PDF' button. A callout box labeled 'Elsevier ScienceDirect' points to the book title.

SpringerLink

Search results for 'Global Health Diplomacy'. The page shows the book title, authors, and a 'Download book PDF' button. A callout box labeled 'SpringerLink' points to the book title.

Cambridge

Search results for 'Patients and Practitioners'. The page shows the book title, author (Roy Porter), and a 'Download PDF' button. A callout box labeled 'Cambridge' points to the book title.

A number of publishers offer full text PDF download

Ebook Central

Search results for 'Emergency Radiology'. The page shows the book title, author (Eugene Yu), and a 'Full text available' link. A callout box labeled 'Click on the full text link in the section Read online to open the eBook' points to the 'Full text available' link.

Click on the full text link in the section Read online to open the eBook

Ebook Central

Detailed search results for 'Emergency Radiology'. The page shows the book title, authors, and a 'Full text available' link. A callout box labeled 'The link leads to the eBook's main page' points to the 'Full text available' link.

The link leads to the eBook's main page

This example is an eBook at Ebook Central. There are many other eBook providers, with slightly different web page configurations. You can find examples of other providers on page 6.

526 Neurological rehabilitation

Neurorehabilitation physicians and those with disorders of consciousness, such as minimally conscious state (MCS) and vegetative state (VS), but this is beyond the scope of this chapter.

physical and cognitive impact and can lead to chronic long-term disability. The rehabilitation approach complements and extends the work of the neurologist and neurosurgical teams, in looking at the impact and consequence of the neurological disorder on the person, their family/carers, and on society as a whole.

It is important to consider the impact of the treatment on the patient's quality of life, not only in terms of physical and cognitive impact but also in terms of psychological factors. This is a concept that

DEFINITIONS AND TERMINOLOGY

What is rehabilitation?

The World Health Organization (2001) defines rehabilitation as 'the use of all means aimed at reducing the impact of disabling and handicapping conditions and at enabling disabled people to achieve social integration'.

The aim is to promote the independence of indi-
