

Premade 25+ parameter spectral flow cytometry panel

With the pre-set 25+ parameter panel you can find the classical population of CD3 T cells, CD4 Helper T cells, CD8 Cytotoxic T cells, Monocytes, B cells, NK cells and more.
We also have antibodies towards neutrophils & live/dead marker

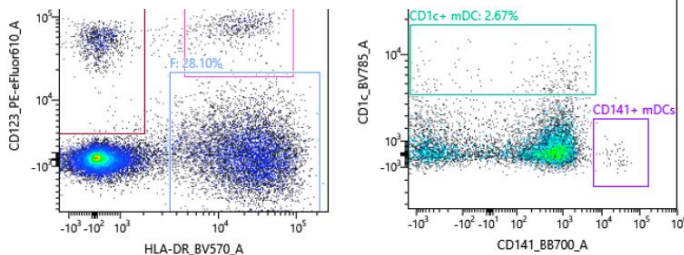

Monocytes

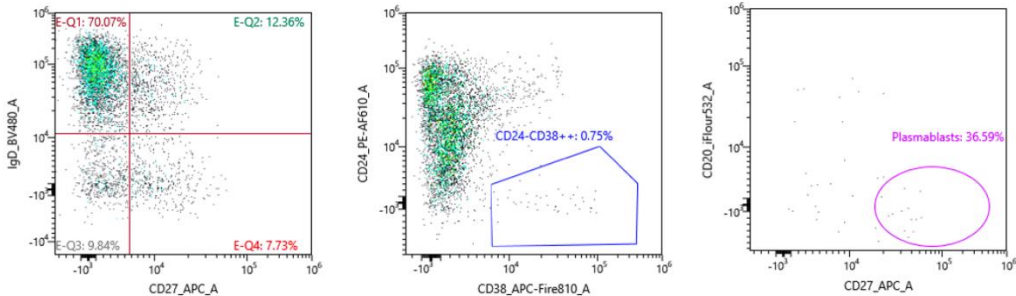

MAIT cells

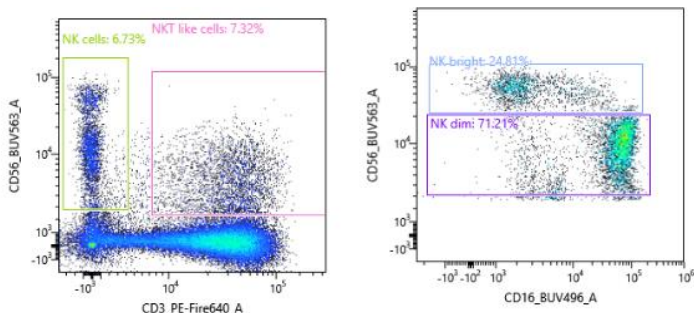

Basophils and DC subsets

B cells

NK cells

Available antibodies available for purchas at the for flow cytometry core facility.
