This special science diplomacy event on the ocean/climate/biodiversity nexus brings together different stakeholders to discuss how to protect, explore, exploit, and share the goods from the high seas as the common heritage of humankind. We will discuss converging ocean-related themes across the recently adopted [Biodiversity Beyond National Jurisdiction](#) (BBNJ) agreement and the Convention on Biological Diversity (CBD) with the [COP15 framework for biological diversity](#).

There will be a reception immediately following the event.
