

Fri prosjektstøtte: Nye prosjekter innenfor humaniora og samfunnsvitenskap fra 2015

Prosjekt	Tittel	Ansvarlig institusjon
Forskerprosjekter		
240060	Airborne: Pollution, Climate Change, and Visions of Sustainability in China	Institutt for kulturstudier og orientalske språk, Universitetet i Oslo
240073	CauseHealth: Causation, Complexity and Evidence in Health Sciences	Handelshøyskolen, Norges miljø- og biovitenskapelige universitet
240120	Museum: A Culture of Copies	Institutt for kulturstudier og orientalske språk, Universitetet i Oslo
240315	Climate Anomalies and Violent Environments (CAVE)	Institutt for fredsforskning
240321	Intergenerational mobility, early health shocks and public policy	Samfunns- og næringslivsforskning AS
240331	The vocabulary learning challenge - How can we improve learning efficiency?	Institutt for spesialpedagogikk, Universitetet i Oslo
240448	Tracing the Jerusalem Code: Christian Cultures in Scandinavia	Det teologiske Menighetsfakultet
240462	Copper in the Early Modern Period. A Comparative Study of Work and Everyday Life in	Institutt for arkeologi, konservering og historie, Universitetet i Oslo
240568	Equal Peace? Women's Empowerment and Multicultural Challenges in War-to-Peace Transitions	Institutt for fredsforskning
240617	Norwegian energy companies abroad: Expanding the anthropological understanding of corporate social responsibility	Institutt for sosialantropologi, Universitetet i Bergen
240647	Undermining Hegemony. The US, China, Russia, and International Public Goods Substitution	Norsk utenrikspolitisk institutt
240672	In 2016 - How it felt to live in the Arab World five years after the "Arab Spring"	Institutt for kulturstudier og orientalske språk, Universitetet i Oslo
240686	Object Matters: Archaeology and Heritage in the 21th Century	Fakultetet for humaniora, samfunnsvitenskap og lærerutdanning, Universitetet i Tromsø
240714	New media practices in a changing Africa	Fakultet for lærerutdanning og internasjonale studier, Høgskolen i Oslo og Akershus
240725	Family language policy in multilingual transcultural families	Institutt for lingvistiske og nordiske studier, Universitetet i Oslo
240881	What's so sexy about degenderizing language? Investigating gender representations of readers and listeners in Norwegian, Finnish and French	Psykologisk institutt, Norges teknisk-naturvitenskapelige universitet eller NTNU
240984	Indigenous Religion(s). Local Grounds, Global Networks	Fakultetet for humaniora, samfunnsvitenskap og lærerutdanning, Universitetet i Tromsø
241089	Insurgent Citizenship in Brazil: the Role of Mega Sports Events	Norsk institutt for by- og regionforskning
Unge forskertalenter		
240280	The Erosion of Cooperative Networks and the Evolution of Social Hierarchies: A Comparative Approach	Norsk institutt for kulturminneforskning, Tromsø
240291	The heterosexual tradition of homoerotic poetics	Det humanistiske fakultet, NTNU
240324	Acquiring figurative meanings: A study in developmental pragmatics	Institutt for filosofi, ide- og kunsthistorie og klassiske språk, Universitet i Oslo

240433	The bodily and emotional quality of the therapeutic relationship as outcome predictor in music therapy with children on the autism spectrum.	Uni Research AS
240446	Attitudes for peace: Postconflict public opinion	SINTEF Teknologi og samfunn
240505	Disentangling the Economic Effects of Political Institutions	Institutt for statsvitenskap, Universitetet i Oslo
240645	Thought and Sense. On the Interface between Perception and Cognition.	Institutt for filosofi, ide- og kunsthistorie og klassiske språk, Universitet i Oslo
240652	The Social Costs of Incarceration	Institutt for økonomi, Universitetet i Bergen
240807	Women in the 'developmental state':	Chr. Michelsens institutt
240834	Games and Transgressive Aesthetics	Institutt for informasjons- og medievitenskap, Universitetet i Bergen
Personlig postdoktorstipend		
240069	A Defence of Objective Values	Institutt for filosofi, ide- og kunsthistorie og klassiske språk, Universitet i Oslo
240086	Remediating Movement: French and British Travel Writing in the Periodical Press (1780-1820)	Det humanistiske fakultet, NTNU
240251	Bodies in Motion. Religion and Corporeality in Late Antiquity	Det teologiske fakultet, Universitetet i Oslo
240441	Political Rights in Precarious Realities; A Socio-Legal Exploration of Syrian Refugees in Turkey, Lebanon and Jordan	Det juridiske fakultet, Universitetet i Bergen
240722	Spatial Orders of Memory and Knowledge. Architectural Schemes for Collections in Early Modern Sweden	Institutt for kulturstudier og orientalske språk, Universitetet i Oslo
240812	The Politics of Rituals. Communication and power in 12th and 13th century Norway	Det humanistiske fakultet, NTNU
240896	Politics of Music in a Changing Latin America: Brazil, Haiti Cuba	Institutt for musikkvitenskap, Universitetet i Oslo
240993	Shari'a and Everyday Life: Shifting Practices of Mahr (Islamic Dower) in Legal Pluralistic Norway	Institutt for arkeologi, historie, kultur og religionsvitenskap, Universitetet i Bergen
240995	Changing Bodies in Toxic Landscapes: Environmental degradation and intersecting knowledges in the Ecuadorian and Peruvian Amazonia	Sosialantropologisk institutt, Universitetet i Oslo
Mobilitetsstipend		
240110	Post-conflict political parties: Party formation, organization and institutionalization in the context of peacebuilding and democratization	Institutt for sammenliknende politikk, Universitetet i Bergen
240246	Knowing Bodies: The Role of the Moving Body in Learning Science and Mathematics Across Formal and Informal Settings	Institutt for pedagogikk, Universitetet i Oslo
240328	Consciousness, Panpsychism and Integrated Information	Institutt for filosofi, ide- og kunsthistorie og klassiske språk, Universitet i Oslo
240845	From zero to hero? Explaining the European Parliament's influence on EU external trade policy	ARENA Senter for europaforskning, Universitetet i Oslo
Konferanser		
240470	2015 European Society of International Law Annual Conference: International Courts and Tribunals	Institutt for offentlig rett, Universitetet i Oslo

240600	Nordic Environmental Social Sciences Conference - Norsk senter for bygdeforskning NESS 2015	
240648	NNCORE 2014: 2nd International Conference in Comics Studies	Institutt for litteratur, områdestudier og europeiske språk, Universitetet i Oslo
240719	ELO2015: International Conference of the Electronic Literature Organization	Institutt for lingvistiske, litterære og estetiske studier, Universitetet i Bergen
245209	Det 37. norske forskermøte for økonomer 2015 ved Universitetet i Bergen.	Samfunnsøkonomenes forening
245215	Nasjonal fagkonferanse i statsvitenskap 2015	Institutt for statsvitenskap, Universitetet i Oslo
245217	Årskonferanse Norsk Antropologisk Forenings Årsmøte 2015	Sosialantropologisk institutt, NTNU
245234	Sosiologi og byråkrati	Institutt for sosiologi og samfunnsgeografi, Universitetet i Oslo
245249	Fagkonferanse KjønnsforskningNÅ 2015 Nasjonal fagkonferanse for kjønnsforskning i Norge	Senter for kvinne- og kjønnsforskning, Universitetet i Bergen
245259	NEON Konferansen 2015	Høgskolen i Sør-Trøndelag
245321	Norske historiedager 2015	Den norske historiske forening

Fri prosjektsstøtte: Nye prosjekter innenfor medisin, helse og biologi (FRIMEDBIO) fra 2015**Forskerprosjekt**

Prosjektnr.	Tittel	Prosjektansvarlig
239834	Adapted Heuristics and Architecture: towards an understanding of personalities and phenotypic diversity	Institutt for biologi, Universitetet i Bergen
239837	Next generation leukemia diagnostics and therapy through p53 isoform analysis	Klinisk institutt 2, Universitetet i Bergen
239840	Defining relevant targets for personalizing gynecologic cancer treatment	Helse Bergen HF
239854	Lamin-genome interactions in the development of Familial Partial Lipodystrophy	Institutt for medisinske basalfag, Universitetet i Oslo
239871	In vitro development of a ligament and in vivo analysis of the bone-soft tissue interface	Oslo universitetssykehus HF
239950	Proteoglycan Signaling Induces Myocardial Fibrosis and Diastolic Heart Failure	Oslo universitetssykehus HF
239987	PCOS mothers and their children: Follow-up of a double-blind, randomized, Norwegian multicentre study on metformin during pregnancy	Institutt for laboratoriemedisin, barne- og kvinnesykdommer, Norges teknisk-naturvitenskapelige universitet
240009	Functional Characterization of a Novel Human Protein Methyltransferase Family	Institutt for biovitenskap, Universitetet i Oslo
240063	The membrane as a catalyst of damaging protein misfolding events	Molekylærbiologisk institutt, Universitetet i Bergen
240099	Metaflammation in cardiovascular disease	Institutt for klinisk medisin, Universitetet i Oslo
240102	Identification of molecular mechanisms and biomarkers of Multiple Sclerosis	Institutt for klinisk medisin, Universitetet i Oslo
240116	Parasite control of host behaviour: Revealing a neurobiological mechanism for active manipulation	Institutt for husdyr- og akvakulturvitenskap, Norges miljø- og biovitenskapelige universitet
240130	Axl regulates stem cell traits in normal and malignant epithelial cells: Basic biology and clinical translation	Institutt for biomedisin, Universitetet i Bergen
240216	Preventing Atopic Dermatitis and ALLergy in children	Institutt for klinisk medisin, Universitetet i Oslo
240223	High speciation rates in Arctic plants: genomic mechanisms and relevance to the latitudinal diversity gradient	Naturhistorisk museum, Universitetet i Oslo
240316	Ultrasound-enhanced delivery of multifunctional nanoparticles: Improving therapy of cancer and diseases in the central nervous system	Institutt for fysikk, Norges teknisk-naturvitenskapelige universitet
240343	Using the moss Physcomitrella patens as a tool to understand the role of DEK1 in plant body patterning and evolution.	Institutt for plantevitenskap, Norges miljø- og biovitenskapelige universitet
240374	Mechanisms for a Novel Muscle Memory	Institutt for biovitenskap, Universitetet i Oslo
240389	Oscillatory mechanisms supporting human cognition	Oslo universitetssykehus HF
240400	Exosomal Annexin A2 in synaptic information transfer	Institutt for biomedisin, Universitetet i Bergen
240413	Rare Genetic Variants in Childhood Diabetes: Improving Diagnostics and Treatment of Childhood Diabetes by Next-Generation Sequencing	Klinisk institutt 2, Universitetet i Bergen
240476	The still neglected brain cells: glia alive	Institutt for medisinske basalfag, Universitetet i Oslo
240483	Structure-function relationship in bacterial adhesins	Institutt for biovitenskap, Universitetet i Oslo
240529	Modulation of epigenetic phenotypes by oxidative DNA base repair	Institutt for kreftforskning og molekylær medisin, Norges teknisk-naturvitenskapelige universitet

FRIMEDBIO tildeling 2015

240557	On the role of hybridisation in evolution - the case of Eurasian Passer sparrows	Institutt for biovitenskap, Universitetet i Oslo
240741	Nanowire-mediated electron iron acquisition in bacteria	Institutt for bioteknologi, Norges teknisk-naturvitenskapelige universitet
240763	POTENTIAL EARLY DIAGNOSTIC MOLECULAR MARKERS OF ADHD: Analysis of miRNA profiles and DNA methylation status in triads	Divisjon for miljømedisin, Nasjonalt folkehelseinstitutt
240766	Dissection of an epigenetic memory mechanism modulating adaptive phenological traits in trees	Institutt for plantevitenskap, Norges miljø- og biovitenskapelige universitet
240768	MARS: Novel Mechanisms of Gene Activation through Relief of SUMO-mediated Repression of transcription	Institutt for biovitenskap, Universitetet i Oslo
240770	Biogenesis of chlorophyll binding electron transfer complexes	Det teknisk-naturvitenskapelige fakultet, Universitetet i Stavanger
240788	A life without SCHAD: Novel implications for insulin-body weight interplay	Klinisk institutt 1, Universitetet i Bergen
240844	The GABA-betaine transporter (BGT1): protection against alcoholic liver disease	Institutt for medisinske basalfag, Universitetet i Oslo
240859	Linking the soil mycobiome to ecosystem diversity, productivity and carbon sequestration in boreal forests	Institutt for biovitenskap, Universitetet i Oslo
240938	Myocardial remodeling as a complex trait- focus on cardiac specific troponin I and T	Institutt for klinisk medisin, Universitetet i Oslo
241011	PROTECTIVE IMMUNITY TO STREPTOCOCCUS PNEUMONIAE INDUCED BY ORAL COMMENSAL STREPTOCOCCI	Institutt for oral biologi, Universitetet i Oslo
241016	Light & Salt - Thyroid hormone deiodinase paralogues & the evolution of complex life-history strategy in salmonids.	Norges fiskerihøgskole, Universitetet i Tromsø – Norges arktiske universitet
241117	Medications during pregnancy: effects on neurodevelopmental disorders in childhood and epigenetic outcomes	Oslo universitetssykehus HF
Unge forskertalenter		
Prosjektnr.	Tittel	Prosjektansvarlig
239875	A randomized controlled study of the effects of long-term exercise training on morbidity and mortality in elderly people. The Generation 100	Institutt for sirkulasjon og bildediagnostikk , Norges teknisk-naturvitenskapelige universitet
239889	Aging starts in the womb: Lifespan mediators and moderators of healthy brain and cognition	Psykologisk institutt, Universitetet i Oslo
239903	A multidisciplinary approach to unravel the novel role of Rab proteins in cell migration	Institutt for biovitenskap, Universitetet i Oslo
239940	Cancer metabolism: From basic biochemistry to clinical opportunities	Institutt for sirkulasjon og bildediagnostikk, Norges teknisk-naturvitenskapelige universitet
239961	Methylation supernegative colorectal cancers - a key to unlocking the secrets of the DNA (de)methylation machinery	Oslo universitetssykehus HF
239963	Cortical representation of unrestrained whole-body motion in 3D	Kavli Institute for Systems Neuroscience, Norges teknisk-naturvitenskapelige universitet
239973	Investigating the role of Gonadotropin-releasing hormone(GnRH) and Neuropeptide Y(NPY) in modulation of brain circuits and animal behavior	Kavli Institute for Systems Neuroscience, Norges teknisk-naturvitenskapelige universitet
239974	AN EPIGENOMIC APPROACH TO STUDY SEASONAL TIMING OF REPRODUCTION AND PHENOTYPIC PLASTICITY IN THE WILD	Institutt for biologi, Norges teknisk-naturvitenskapelige universitet
239976	What Lies Within: Evolution and ecological significance of a common conifer endophyte.	Institutt for biovitenskap, Universitetet i Oslo

FRIMEDBIO tildeling 2015

239985	Overcoming insomnia. From genes to long-term impact on health and work. A large RCT of online cognitive-behavioral therapy for insomnia.	Divisjon for psykisk helse, Nasjonalt folkehelseinstitutt
240008	Evolutionary responses to variable and unpredictable environments: conditions, interactions and consequences.	Institutt for biologi, Norges teknisk-naturvitenskapelige universitet
240051	The role of 5-hydroxymethylation during mesoderm and hematopoietic cell fate specification	Norsk senter for molekylærmedisin, Universitetet i Oslo
240058	Cell division in Streptococcus pneumoniae: identification and characterization of the cross wall-splitting machinery.	Institutt for kjemi, bioteknologi og matvitenskap, Norges miljø- og biovitenskapelige universitet
240207	Influenza in Norway: Burden of Disease and Vaccine Effectiveness	Divisjon for smittevern, Nasjonalt folkehelseinstitutt
240284	Non-coding RNA in the evolution of Animals	Institutt for biovitenskap, Universitetet i Oslo
240369	Mitochondrial dysfunction in the pathogenesis of Parkinsons disease: elucidating disease mechanisms and identifying therapeutic targets	Klinisk institutt 1, Universitetet i Bergen
240584	Functional implications of the DNA- and RNA-processing activities of SMUG1 in telomere maintenance	Akershus universitetssykehus HF
240756	Resolving complex genetic causes of Movement Disorders	Klinisk institutt 1, Universitetet i Bergen
240787	NORGUT: EXPLORING THE METABOLIC SIGNATURES OF DISEASE AND DRUG ASSOCIATED GENOMIC FEATURES OF THE GUT MICROBIOTA IN NORWAY	Institutt for klinisk medisin, Universitetet i Oslo
240904	Assembling a Micro Eco-System: Unveiling the network of ecological interactions in a marine microbial community using Next-Generation omics	Institutt for biovitenskap, Universitetet i Oslo
240922	Cytotoxic lymphocyte function in regulation of human autoimmunity	Klinisk institutt 2, Universitetet i Bergen
241022	Role of histone modifications during development- implications for stem cell function	Oslo universitetssykehus HF
Postdoktorstipend		
Prosjekt	Tittel	Prosjektansvarlig
239865	New approach for predicting ecological dynamics during environmental change	Institutt for biologi, Norges teknisk-naturvitenskapelige universitet
239948	Stearoyl-CoA desaturase and energy metabolism in humans	Institutt for medisinske basalfag, Universitetet i Oslo
240218	New mass spectrometric techniques for marine bioprospecting	Northern Research Institute Tromsø AS
240405	Systems genetic approach to diet-induced non-alcoholic fatty liver disease (NAFLD)	Frode Norheim (utenlands)
240493	In vivo study of satellite cell addition and function in hypertrophying skeletal muscle	Institutt for biovitenskap, Universitetet i Oslo
240814	Notch signalling in inflammation	Oslo universitetssykehus HF
240897	The plant root microbiome diversity and resilience in a changing climate	Institutt for biovitenskap, Universitetet i Oslo
241023	Elucidating the Role and Regulatory Networks of the putative DCAF protein WDR55 in Plant Reproductive Development	Institutt for biovitenskap, Universitetet i Oslo
241040	Can exercise training prevent or reduce myocardial infarction induced arrhythmias?	Institutt for sirkulasjon og bildediagnostikk, Norges teknisk-naturvitenskapelige universitet
Arrangementsstøtte		
Prosjektnr.	Tittel	Institusjon

FRIMEDBIO tildeling 2015

Prosjektnr.	Tittel	Institusjon
240574	The 8th international symposium of charr	Institutt for arktisk og marin biologi, Universitetet i Tromsø – Norges arktiske universitet
Mobilitetsstipend		
Prosjektnr.	Tittel	Institusjon
239757	Follicular regulatory T cells. Probing their mode of suppression by a novel technique	Oslo universitetssykehus HF
239788	FUNCTIONAL IMPACT OF NOVEL SJÖGRENS SYNDROME-ASSOCIATED GENETIC POLYMORPHISMS	Klinisk institutt 1, Universitetet i Bergen
239813	B7-H3/PTEN: a new axis for novel anti-cancer therapies in prostate cancer	Oslo universitetssykehus HF
240149	Identifying the genetic basis of atrial fibrillation	Vestre Viken HF
240215	Development of new strong zinc chelators and their applications in combating bacterial resistance and catalysis	Farmasøytisk institutt, Universitetet i Oslo
240421	Characterization of Genetic Risk Factors in Sjögren's Syndrome	Klinisk institutt 2, Universitetet i Bergen
240553	The neurobiology of the patient-clinician interaction, and its impact on treatment outcome	Psykologisk institutt, Universitetet i Oslo

Fri prosjektstøtte: Nye prosjekter innenfor matematikk, naturvitenskap og teknologi (FRINATEK) fra 2015		
Prosjekt	Tittel	Prosjektansvarlig
Forskerprosjekt:		
239926	Super Insulator Spintronics	Institutt for fysikk, Norges teknisk-naturvitenskaplige universitet
239965	Overturning circulation and its implications for global carbon cycle in coupled models	Uni Research AS
240079	Theoretical and Data-driven Approaches for Energy-efficient Networks(TIDENET)	Simula Research Laboratory
240101	ExiBiDa: Exploring new dimensions in Big Data	Institutt for datateknikk og informasjonsvitenskap, Norges teknisk-naturvitenskaplige universitet
240299	Dynamics of coupled processes in responsive soft (bio)polymer materials	Institutt for fysikk, Norges teknisk-naturvitenskaplige universitet
240333	Design of Green Catalysts for the Conversion of Renewable Resources into Polymers	Kjemisk institutt, Universitetet i Bergen
240410	MULTIBUBBLE - Multifunctional microbubbles for improved image-based diagnosis and drug delivery	SINTEF Teknologi og samfunn
240466	Oxide based intermediate band materials	Institutt for fysikk, Norges teknisk-naturvitenskaplige universitet
240477	Optical band gap engineering in O-containing yttrium hydride	Institutt for energiteknikk
240510	Turbulence and transport at the boundary of fusion plasmas	Institutt for fysikk og teknologi, Universitetet i Tromsø
240550	Extending the instrumental record of North Atlantic Ocean climate variability	Uni Research AS
240569	COMPLEX ANALYSIS AND DYNAMICS	Institutt for matematiske fag, Norges teknisk-naturvitenskapelige universitet
240614	Semantics-Based Analyses for Cloud-Aware Computing	Institutt for informatikk, Universitetet i Oslo
240663	Quantifying Soil Structure to Augment the Relevance of Laboratory-Based Soil Hydraulic Properties for Environmental Modelling	Bioforsk Jord og miljø
240698	Coupled cluster methods for periodic systems	Kjemisk institutt, Universitetet i Oslo
240767	Dynamics of Igneous Plumbing Systems in Sedimentary Basins	Institutt for geofag, Universitetet i Oslo
240810	Computational Aspects of Univalence	Institutt for informatikk, Universitetet i Bergen
240862	Engineering Predictability with Embodied Cognition	Institutt for informatikk, Universitetet i Oslo
240866	Optimized electrode-electrolyte interfaces for Li-air batteries	Institutt for materialteknologi, Norges teknisk-naturvitenskapelige universitet
240873	Penalised Complexity-priors: A new tool to define default priors and robustify Bayesian models	Institutt for matematiske fag, Norges teknisk-naturvitenskapelige universitet
240944	Vulnerability and dynamics of East Antarctic Ice Sheet in Recovery Frontier	Norsk Polarinstitutt
240985	Secure and Reliable Distributed Storage Systems	Simula Research Laboratory
Unge forskertalenter:		
239895	novel Semiconducting ALloys In ENergy Technology	Senter for materialvitenskap og nanoteknologi, Universitetet i Oslo
239918	Satellite-based Permafrost Modeling across a Range of Scales	Institutt for geofag, Universitetet i Oslo
239923	Deep Learning in Mice and Machines: Neural algorithms for visual-to-spatial information processing	Institutt for informatikk, Universitetet i Oslo
239956	Analyzing clinical health registries: improved software and mathematics of identifiability	Institutt for medisinske basalfag, Universitetet i Oslo
240024	Interactive and Optimal Configuration of Cyber Physical System Product Lines	Simula Research Laboratory
240072	SNAKE - Control Strategies for Snake Robot Locomotion in Challenging Outdoor Environments	SINTEF IKT
240104	Nuclear shell evolution towards the terra incognita	Fysisk institutt, Universitetet i Oslo
240243	Quantum physics at the macroscopic scale	Fysisk institutt, Universitetet i Oslo
240372	Atmospheric concentrations of Black Carbon: From measurements to climate constraints	CICERO Senter for klimaforskning
240674	Molecular spin frustration	Kjemisk institutt, Universitetet i Oslo
240806	Spin- and Valleytronics in Low-Dimensional Dirac Systems	Institutt for fysikk, Norges teknisk-naturvitenskaplige universitet
240838	Model selection and model verification for point processes	Norsk Regnesentral
240967	Resolving molecular mechanisms of biomass degrading enzymes through a combined computational and experimental approach	Institutt for kjemi, bioteknologi og matvitenskap, Norges miljø- og biovitenskaplige universitet
Personlig postdoktorstipend:		
239968	Matroids in tropical geometry	Matematisk institutt, Universitetet i Oslo
240362	C*-Algebraic Facets of Irreversible Dynamical Systems	Matematisk institutt, Universitetet i Oslo
240909	Structure and dynamics of Yersinia Adhesin A in a membrane by nuclear magnetic resonance and electron paramagnetic resonance spectroscopy	Institutt for biovitenskap, Universitetet i Oslo
240910	The study of positronium production and antimatter interactions in membranes	Lillian Smestad (utenlands)
240913	Structure of C*-algebras arising from groups	Matematisk institutt, Universitetet i Oslo
Mobilitetsstipend:		
240278	HYBRID METHOD FOR CALCULATING THE RADIATED SOUND FROM VIBRATING STRUCTURES	Institutt for elektronikk og telekommunikasjon, Norges teknisk-naturvitenskapelige universitet
240513	FRIO: FRont Interaction with Orography	Geofysisk institutt, Universitetet i Bergen
240921	Black carbon aerosols and Arctic climate	CICERO Senter for klimaforskning
Arrangementsstøtte:		
240025	14th IFIP International Conference on Entertainment Computing Trondheim 30/9 1,2/10 2015	Institutt for datateknikk og informasjonsvitenskap, Norges teknisk-naturvitenskapelige universitet
240043	5th International workshop on level densities and gamma-strength functions	Fysisk institutt, Universitetet i Oslo
240314	Ergodic Theory and Combinatorics conference	Institutt for matematiske fag, Universitetet i Agder
240373	ACM 2015 International Conference on Distributed Event-Based Systems	Institutt for informatikk, Universitetet i Oslo
240491	Nordic Physics Days 2015	Institutt for fysikk, Norges teknisk-naturvitenskaplige universitet

240592	European Conference on Circuit Theory and Design	Institutt for elektronikk og telekommunikasjon, Norges teknisk-naturvitenskapelige universitet
240612	Organizing the 20th International Symposium on Formal Methods (FM 2015)	Institutt for informatikk, Universitetet i Oslo
240716	12th International Conference on Information Systems for Crisis Response and Management 2015	Institutt for IKT, Universitetet i Agder
240876	Organizing EUROCOMB 2015 - the European Conference on Combinatorics, Graph Theory and Applications - in Bergen.	Institutt for informatikk, Universitetet i Bergen
240901	Geilo School 2015	Institutt for energiteknikk
