Energy carriers in Norwegian industry

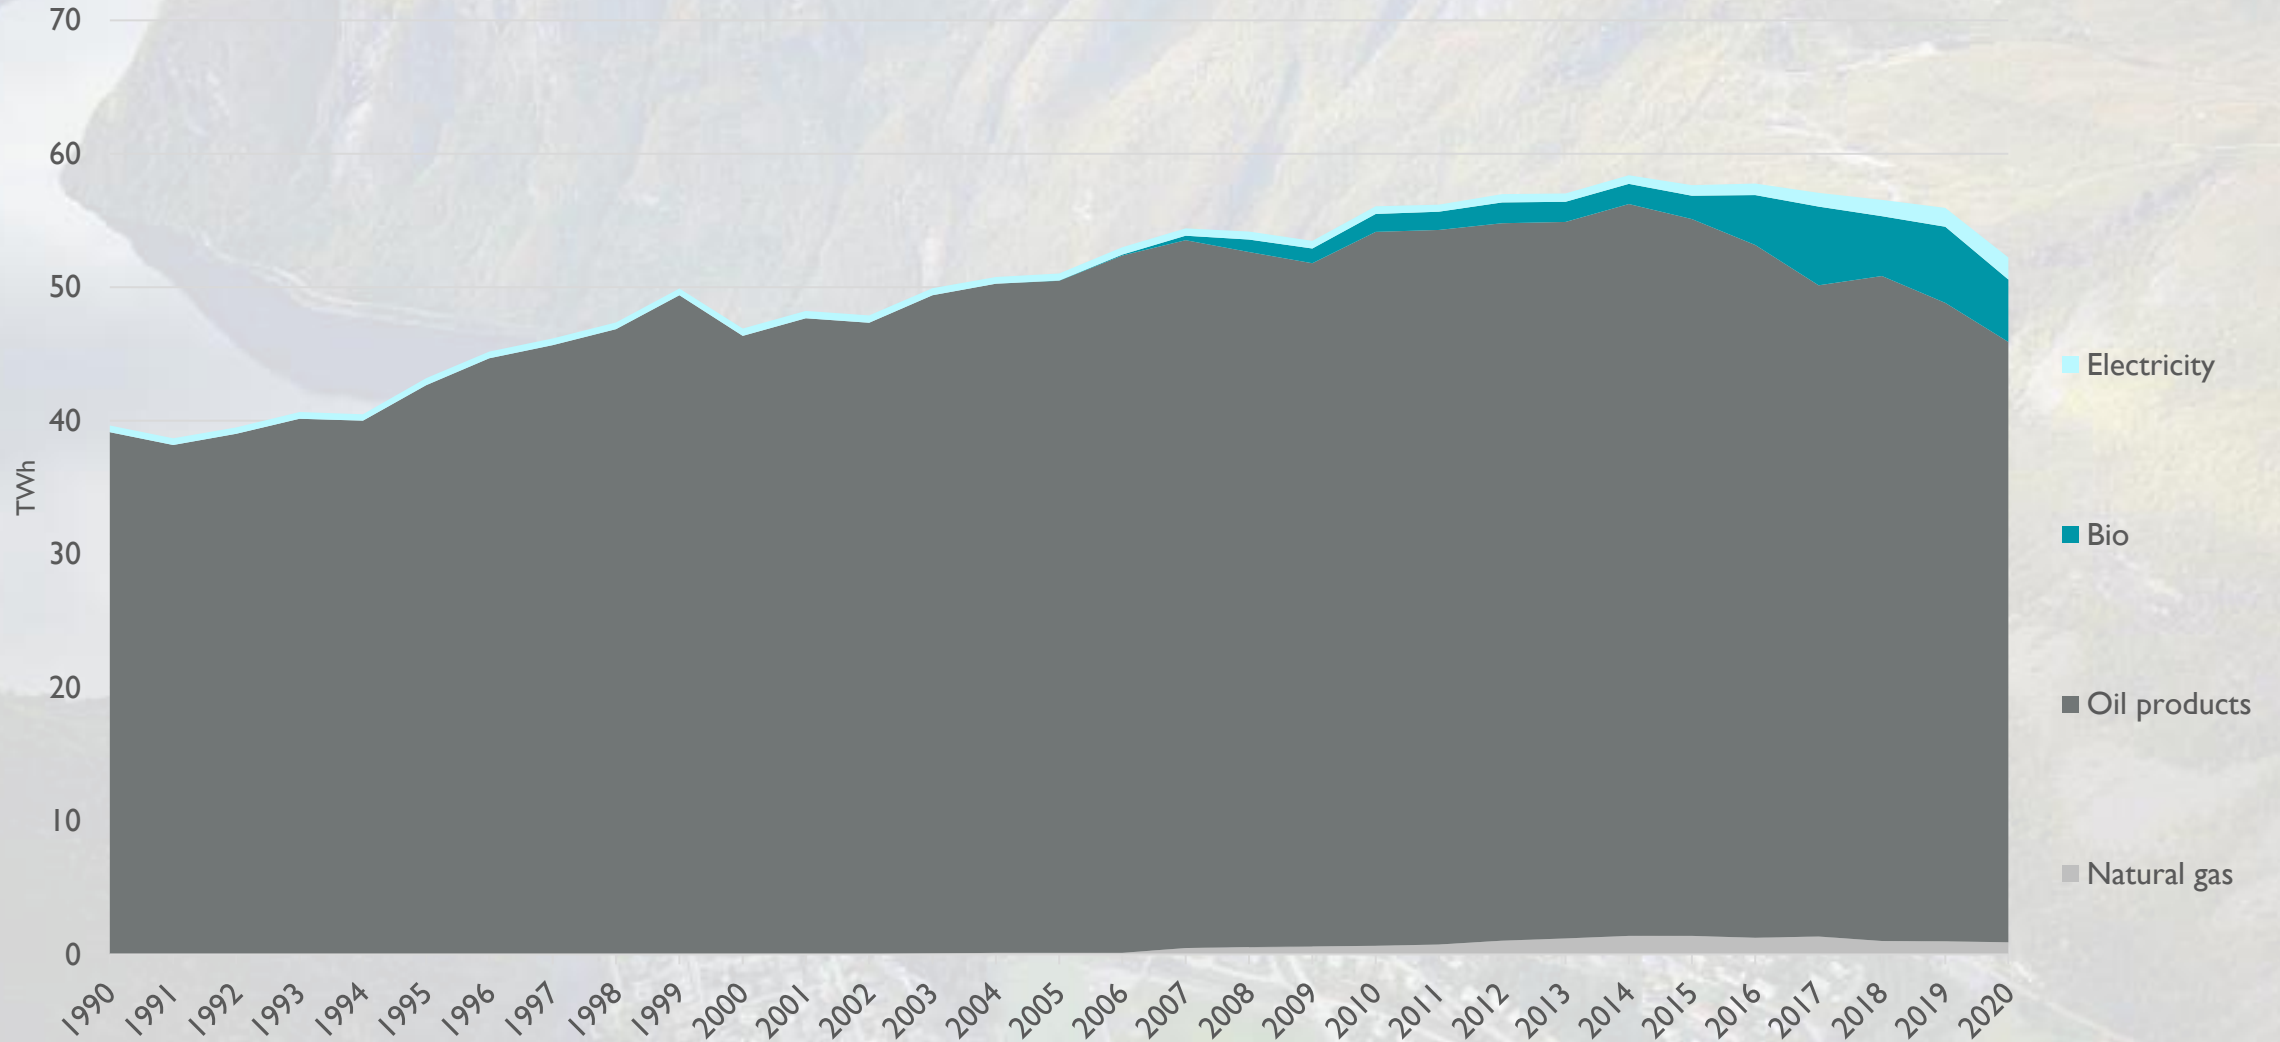

Source: SSB, NVE

The energy sector is also important

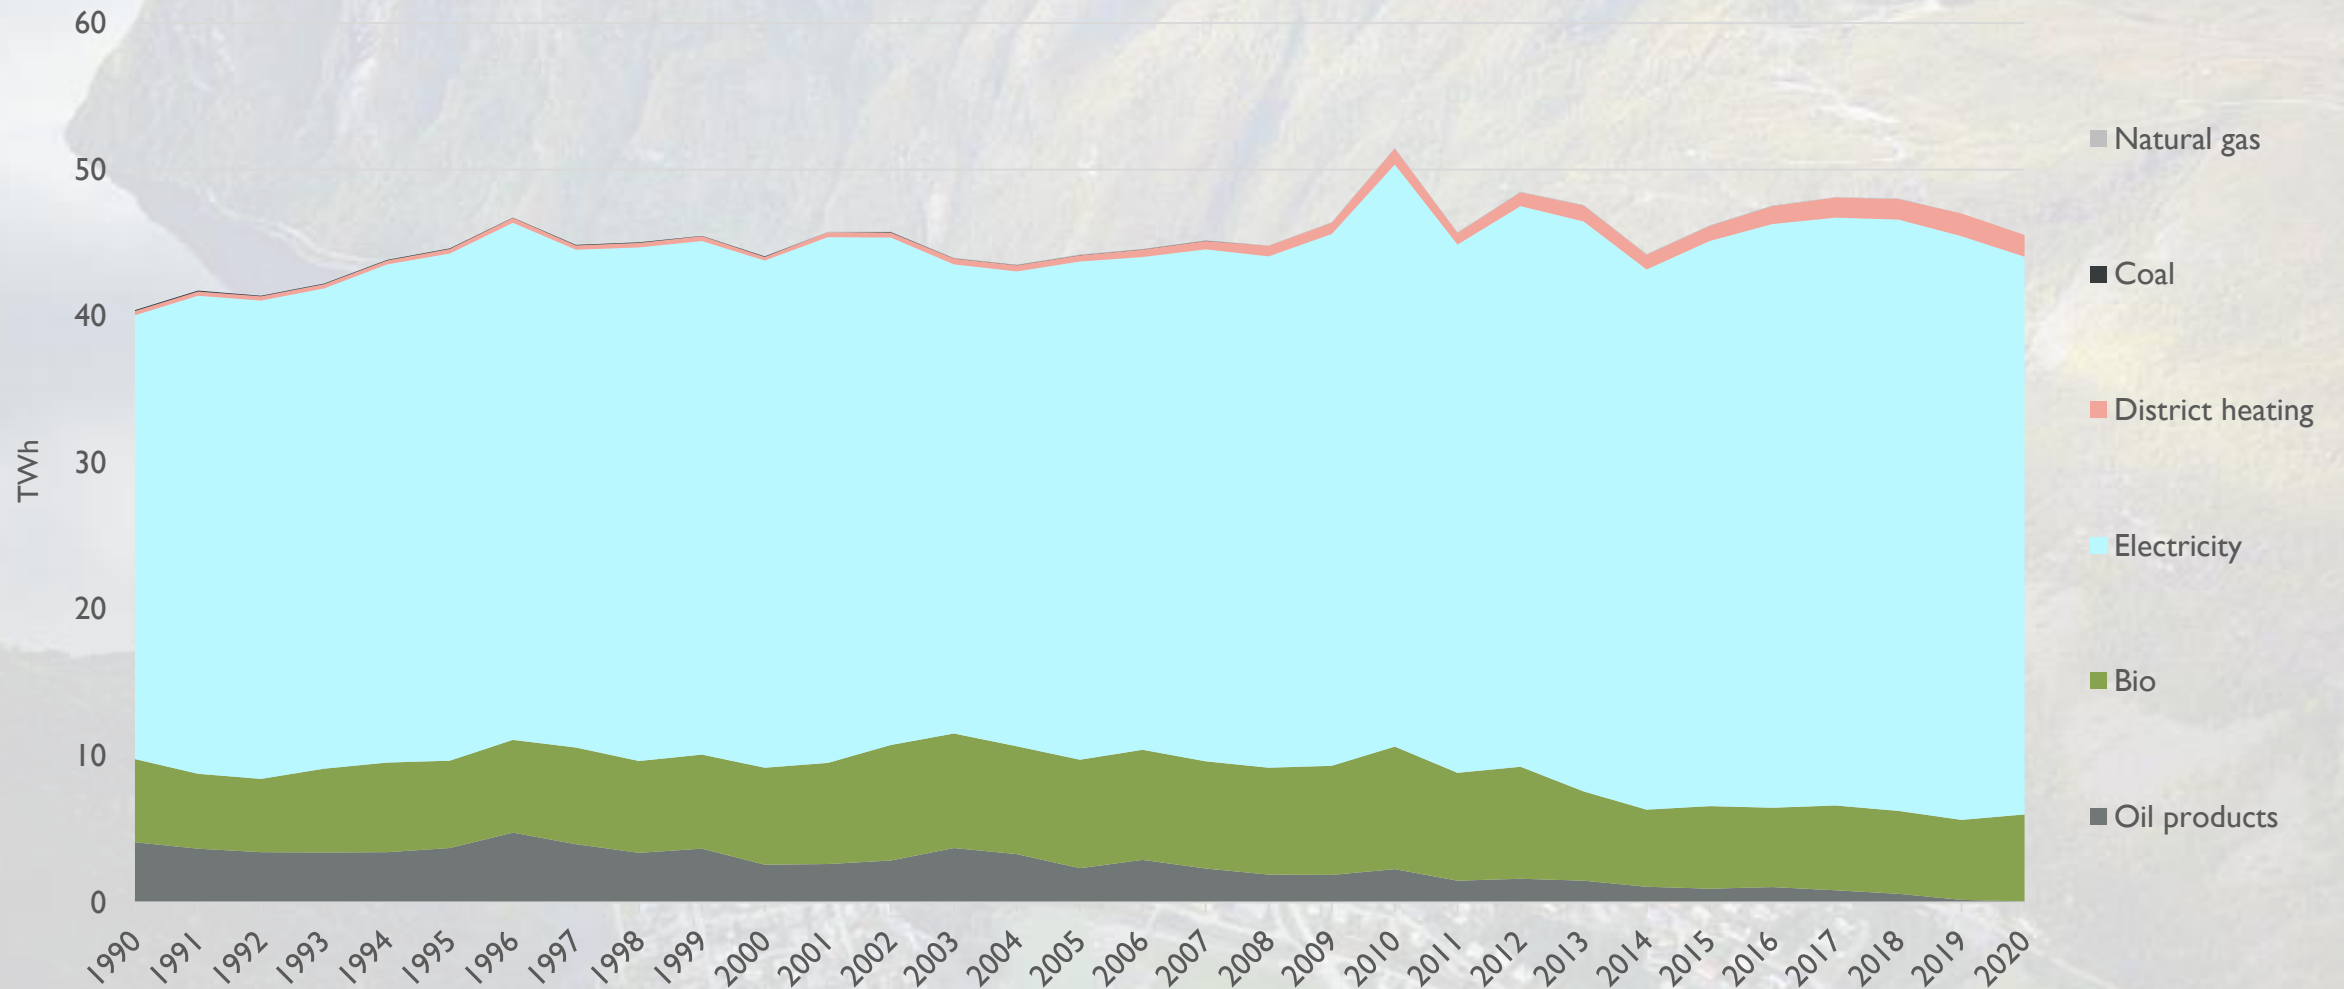

Source: SSB, NVE

Transport is dominated by fossil energy

Source: SSB, NVE

Households in Norway are highly electrified

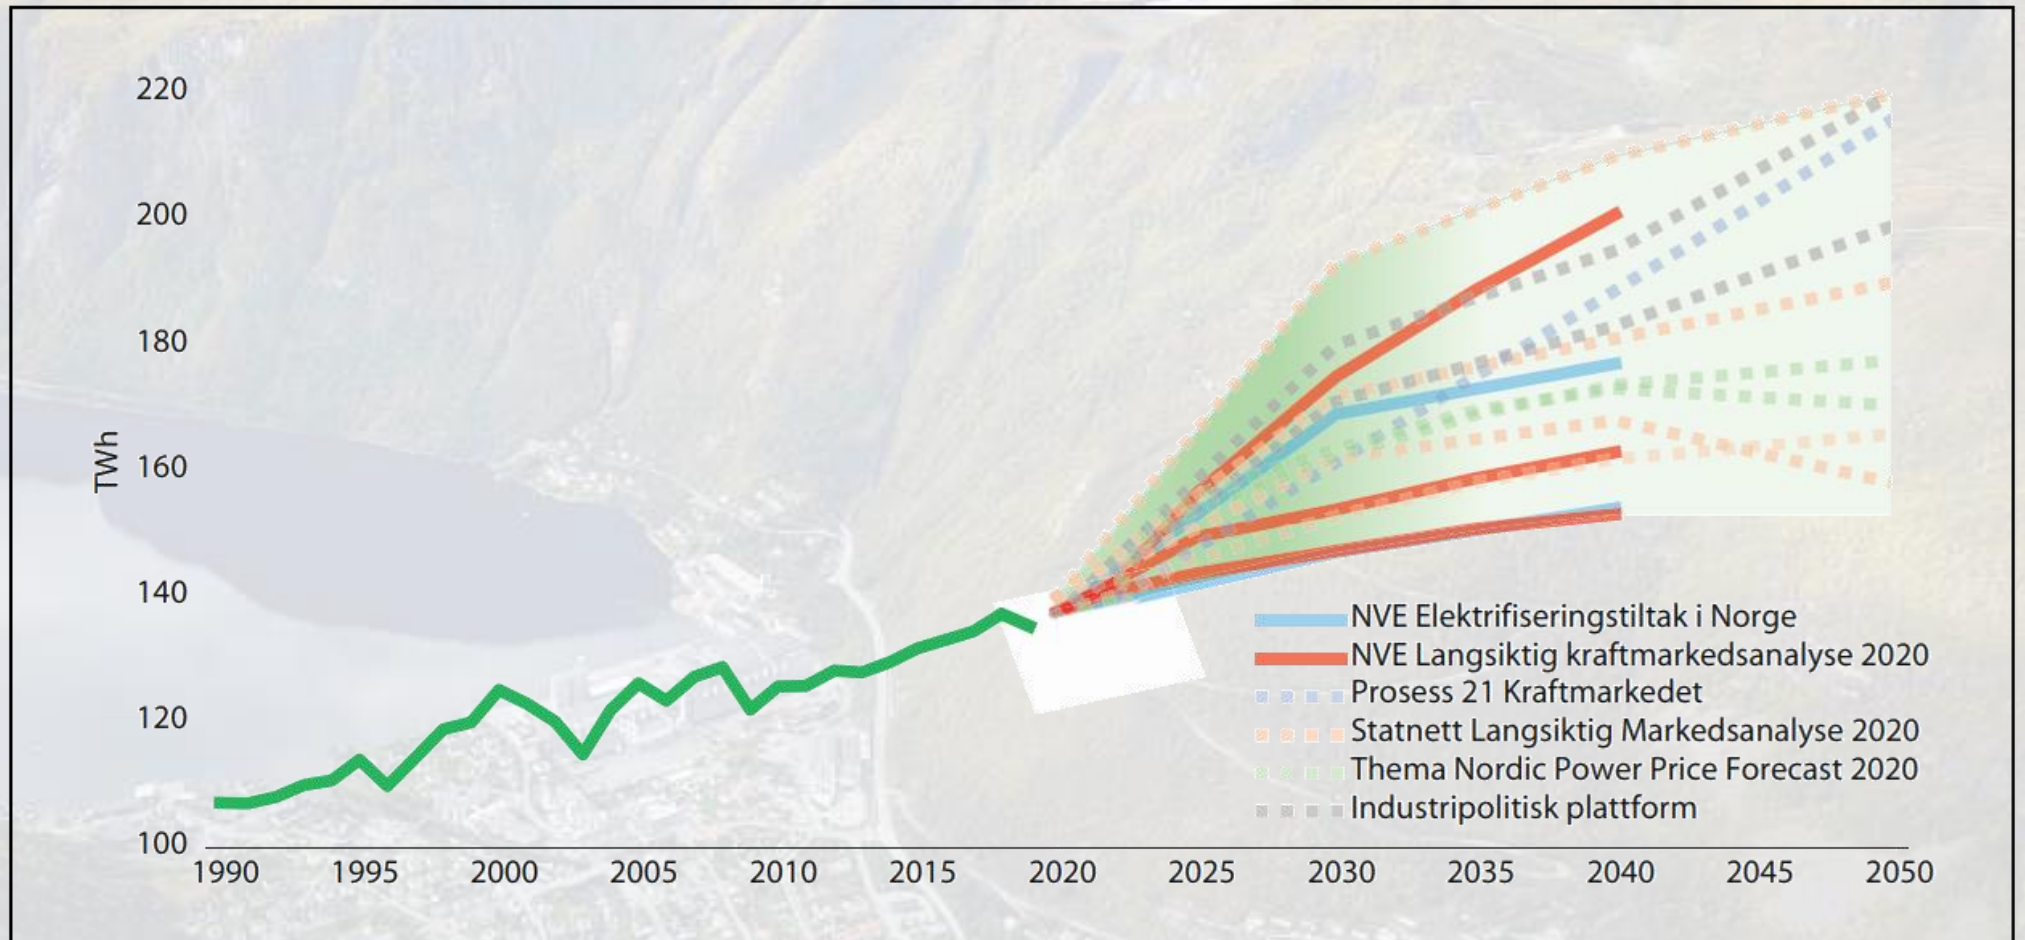

Source: SSB, NVE

The cleanest kilowatthour is the one you don't use

From history,
to the future

The future is uncertain

Figur 3.11 Historisk temperaturkorrigert forbruk og anslag for norsk kraftforbruk mot 2040, fra utvalgte rapporter og innspill. Anslag med lik farge er ulike scenarier fra samme analysemiljø.
