

This form includes questions for the “ordinary” scientific PhD education and the PhD education in artistic research. Please answer questions that are relevant only to you.

Codes for filling in: The scientific PhD education – VIT PHD

PhD education in artistic research - KU PHD

Both PhD educations - FELLEES

## **Progress report PhD education *VIT PHD***

All PhD candidates at UiB are required to report annually on the progress of their research project and PhD education. Please submit your progress report by filling in this questionnaire.

**Reporting deadline is 1 November.**

Submitted information will be looked over and treated with caution by a small number of people in the administration and leadership at your faculty/department. The progress report should focus on the progress in the research project and the training component. Should you wish to share sensitive information related to your progress like sick leaves or the similar, we recommend you to contact relevant staff at either the department or the faculty. You **MAY NOT** submit sensitive information in this form.

You must describe the progress during the last year in this questionnaire. You are recommended to write the text beforehand in a separate document that you can copy and paste directly into the questionnaire. The description should be no longer than half a page.

Candidate and supervisor must answer the questions independent of each other.

Your progress report will be examined after the reporting period is over and data is sorted.

You can return to your progress report form at any time by following the link you have received in the e-mail. When the submission deadline has passed, it will no longer be

possible to make changes to your answers.

The information you have submitted in the progress report will be stored until you complete your PhD.
