

Denne lista ligger i et underområde til: <http://www.uib.no/lle/ressurser/tjenester/personnavn>
(ta ev. kopi til nettleseren)

Ansvarlig for innholdet: Ivar Utne, Nordisk institutt, Universitetet i Bergen.
Dette er første fulle versjon, lagt ut: 07.05.2007 18:22; lagra med ny adresse 04.03.2009
15:52
(6.5.2007 ble en del av lista lagt ut.)

MUSLIMSKE KVINNENAVN

SUPPLEMENT TIL LISTA "NAVN SOM HAR TRADISJON I EN KULTUR SOM IKKE SKILLER MELLOM FORNAVN OG ETTERNAVN."

Jf. navneloven § 3 3. ledd nr. 3, § 4 1. ledd nr. 3 og nr. 5, og § 8 2. punktum.

Denne lista er et tillegg til hovedlista på denne nettadressa:
<http://folk.uib.no/hnoi/navn/freg/lister/navneliste.htm> (NB! Ny adresse fra 4.3.2009.)
Det vil si at denne lista med muslimske kvinnenavn skal brukes på samme måten.

Siden hovedlista det er vist til ovenfor, inneholder mye færre kvinne- enn mannsnavn fra muslimsk navnetradisjon, kommer dette tillegget med kvinnenavn. Dette vil etter hvert bli lagt inn i hovedlista, eller det vil bli et system med delte lister.

Alle muslimske kvinnenavn som er med i hovedlista fra 2002, er også med i denne nye utvida lista med muslimske kvinnenavn. Det var ca. 650 navn.

Om noen dager vil lista nedenfor bli utvida med noen transkripsjonsmåter av navn som er lite representert foreløpig. Det gjelder bl.a. doble vokaler, f.eks. aa for a i mange navn, og ee for e f.eks. for Jameela i tillegg til Jamila, og for Ameena i tillegg til Amina. Dobbelt e leses som i.

Lista nedenfor inneholder 3219 kvinnenavn.

© Opphavsrett og kopirett til listen: Ivar Utne. Den kan ikke distribueres i strid med åndsverksloven. Eksempler kan brukes med referanse til overskriften og undertegnede. Etter avtale med Justisdepartementet kan listen brukes fritt av folkeregistrene, fylkesmannsembetene og Justis- og politidepartementet. (Samme som for hovedlista det er vist til ovenfor.)
