

# Villaveien 9

## Knut Færgris hus

Photo: Statsbygg

Knut Færgris hus is centrally located on campus, within easy walking distances to almost all faculties. Right next to Nygårdsparken, close to grocery stores, and easy walking distance to downtown Bergen and shopping areas. About 5-minute walk to public transport to Haukeland University Hospital and Bybanen that goes between city center and airport.

There are two apartments on the second floor in Villaveien 9.

Apartment 1 faces south and has morning sun and great view of Mount Fløyen and Mount Ulriken.

Apartment 2 faces north and has view of Damsgård and Damsgårdsfjellet.

Both were renovated in the fall of 2018. Featuring high ceilings, large windows, and décor to reflect the age and beauty of the building, at the same time updating to today's standards.

The main floor is used for UiB special events, like doctoral dinners and special nomination dinners, and in the basement you find the Bodega. These areas are only rented out for special occasion.
