

Offshore wind in Utsira and Sørliche Nordsjø II, phase I; what now?

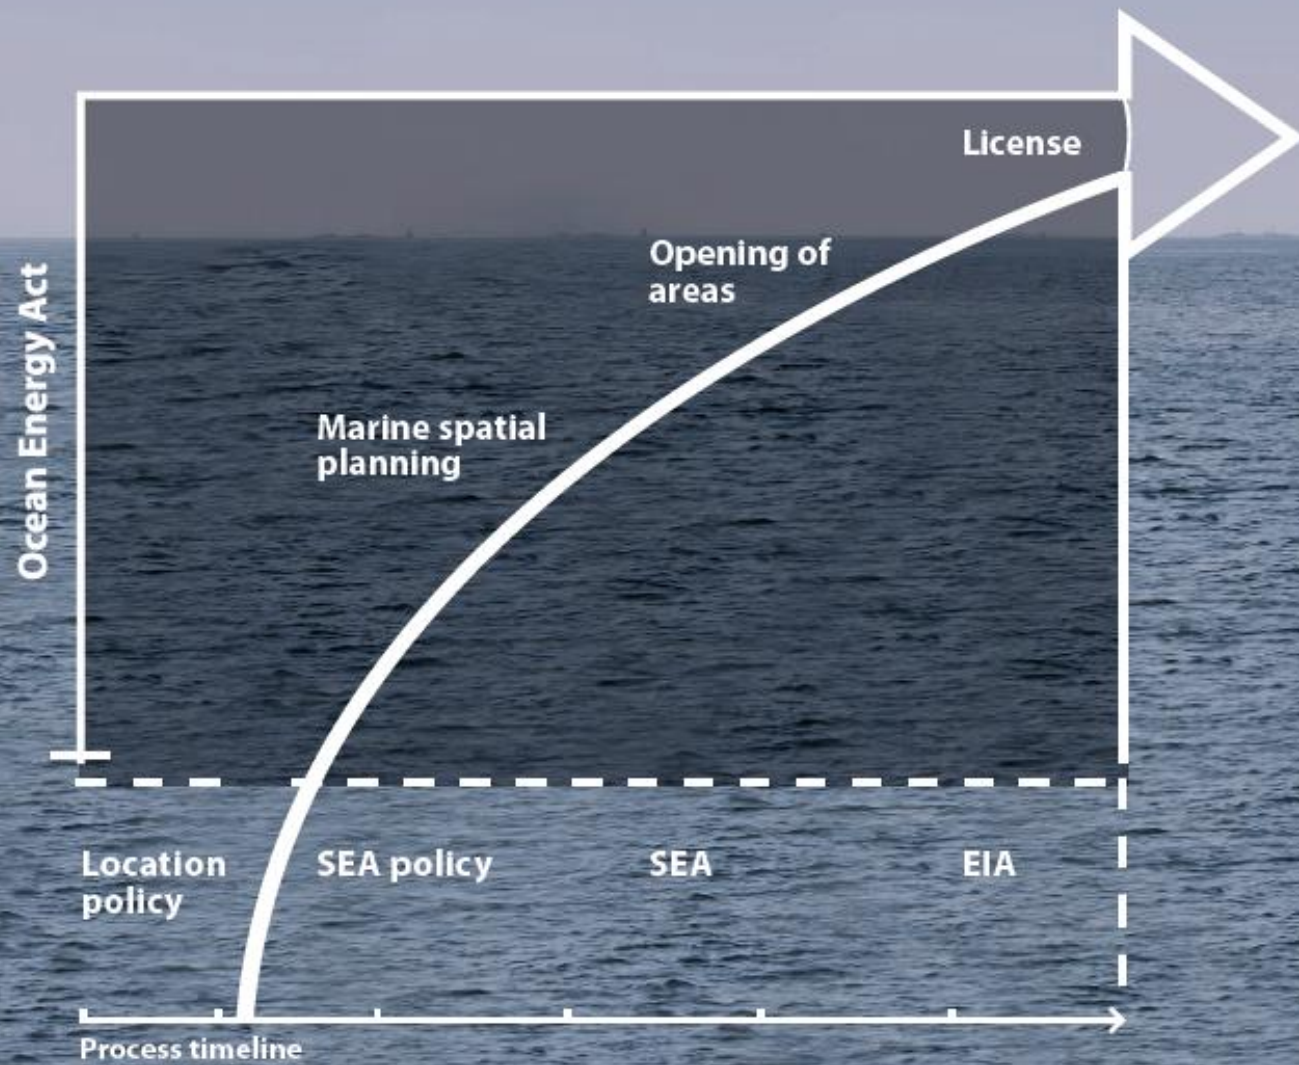

Consultation process on the proposed division of the areas to be allocated and the process ahead

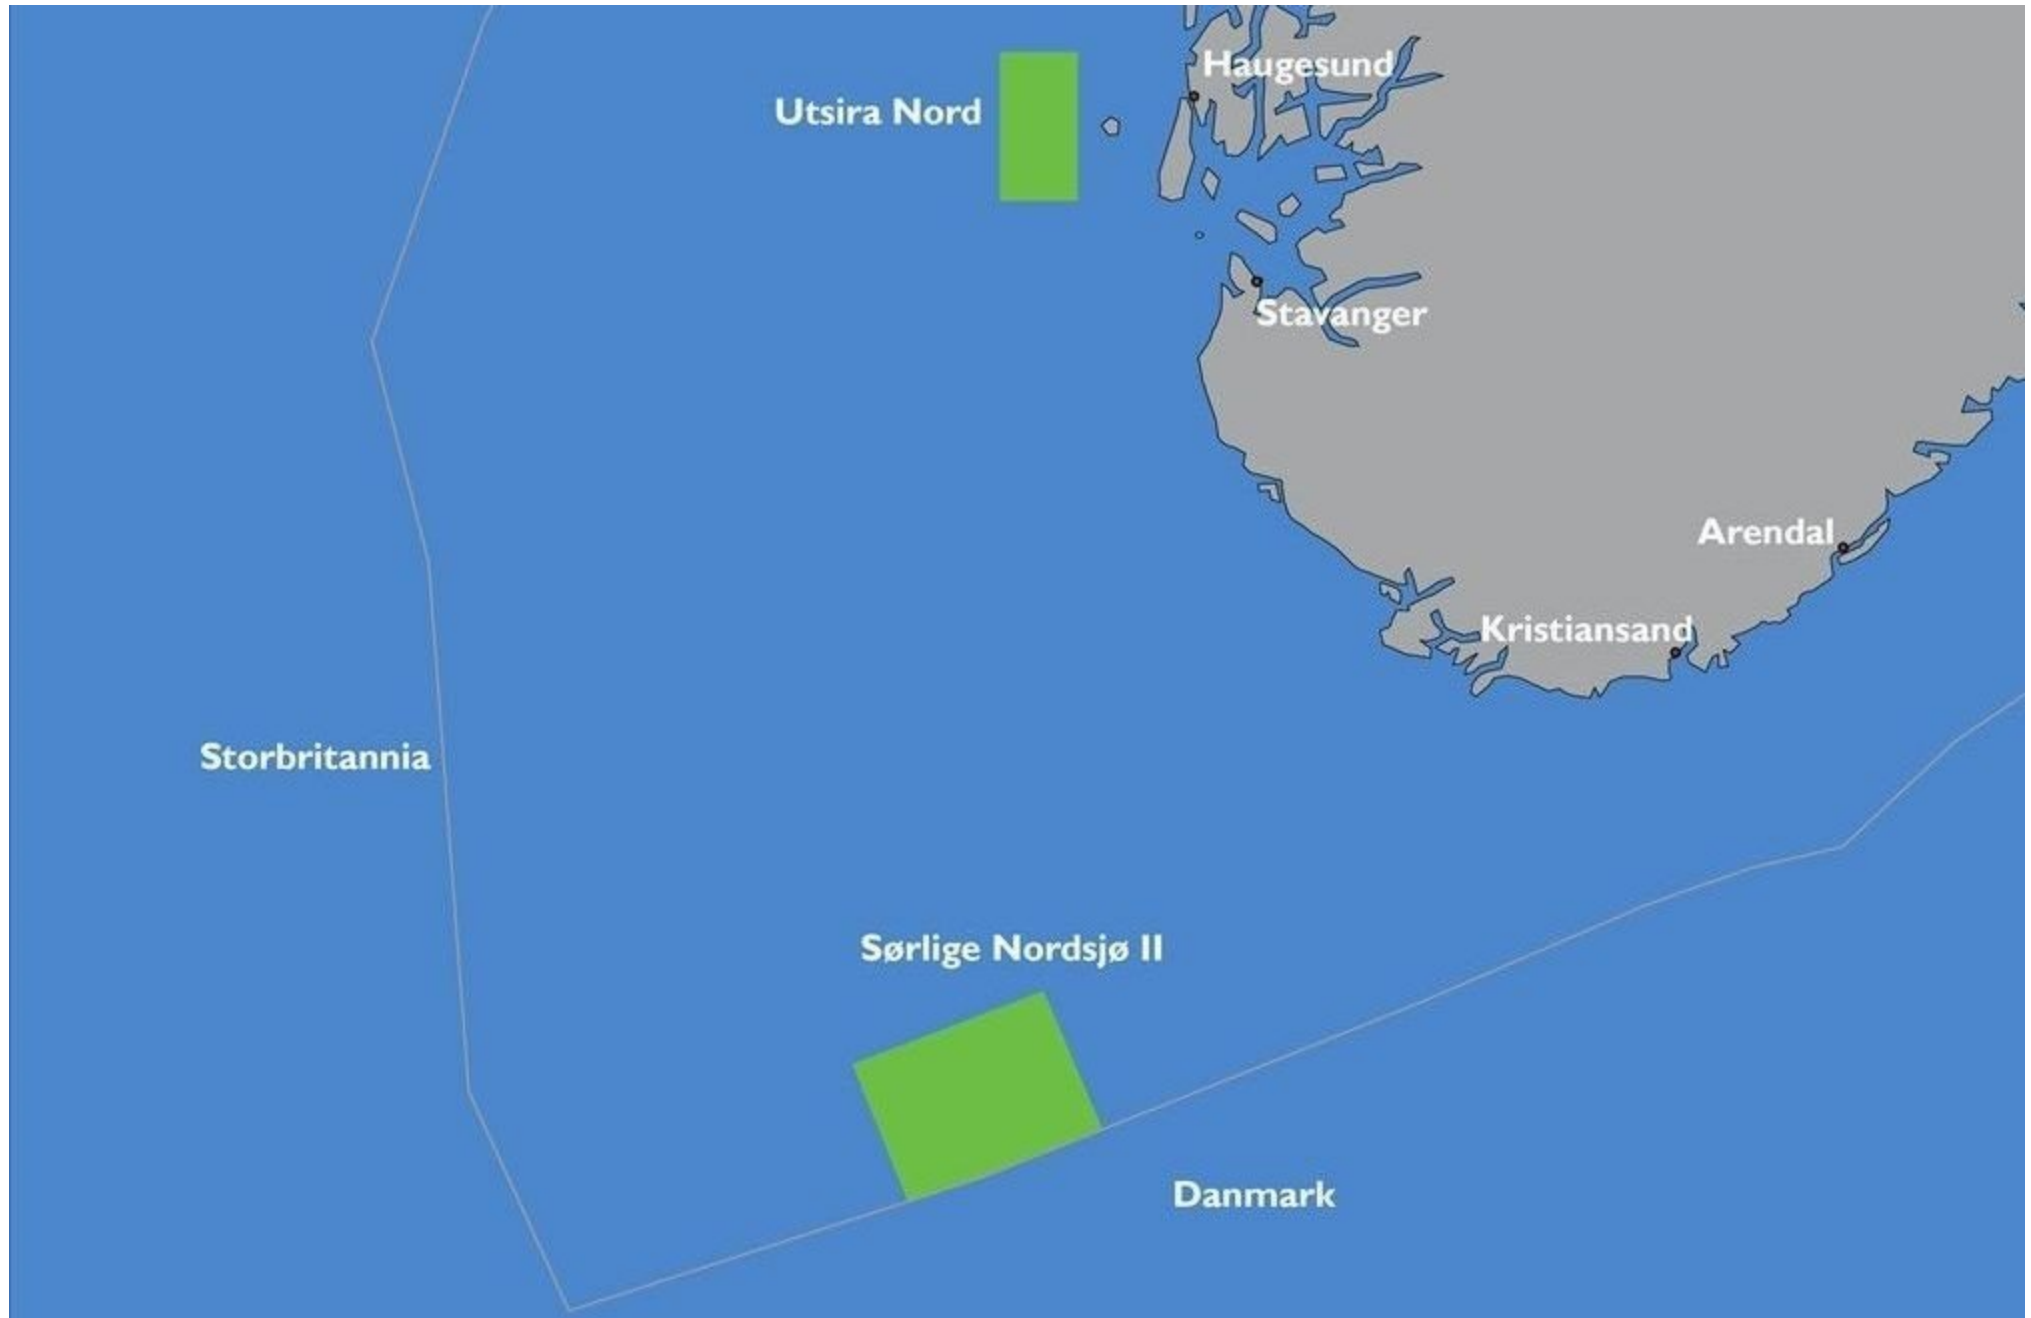

Faculty of Law, Prof. Sigrid Eskeland Schütz

Olje- og energiminister Marte Mjøs Persen la frem regjeringens videre satsing på havvind på norsk sokkel sammen med statsminister Jonas Gahr Støre, finansminister Trygve Slagsvold Vedum og næringsminister Jan Christian Vestre på Vippekaia i Oslo 9. februar 2022. Foto: Margrete Løbben Hanssen/OED

- Consultation process on the proposed division of the areas to be allocated and the process ahead. Sigrid Schütz (7 min)
- Subsea cable from Sørliche Nordsjø II to the Norwegian mainland. Ignacio Herrera Anchustegui (7 min)
- Wind resources in the proposed areas. Joachim Reuder (10 min)
- Seabed-conditions and geology in the proposed areas. Christian Haug Eide (10 min)
- Open discussion (40 min)
- Closing remarks (5 min)

Where are we now?

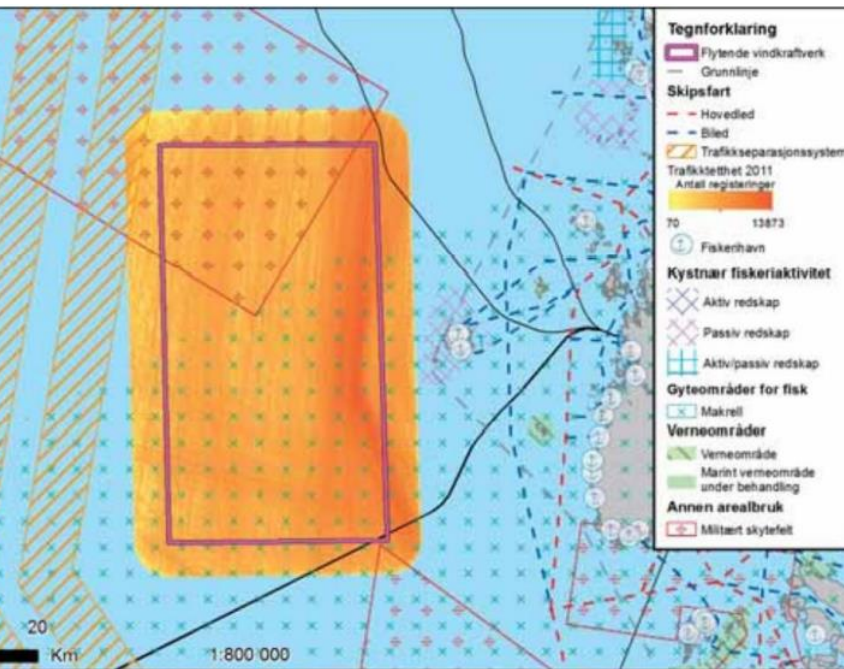

Public hearing on the Proposal: The division of opened areas in more specific «areas to be allocated»/(areas for a specific licence).
Forslag til arealinndeling innanfor opna område «utlysingsområde».

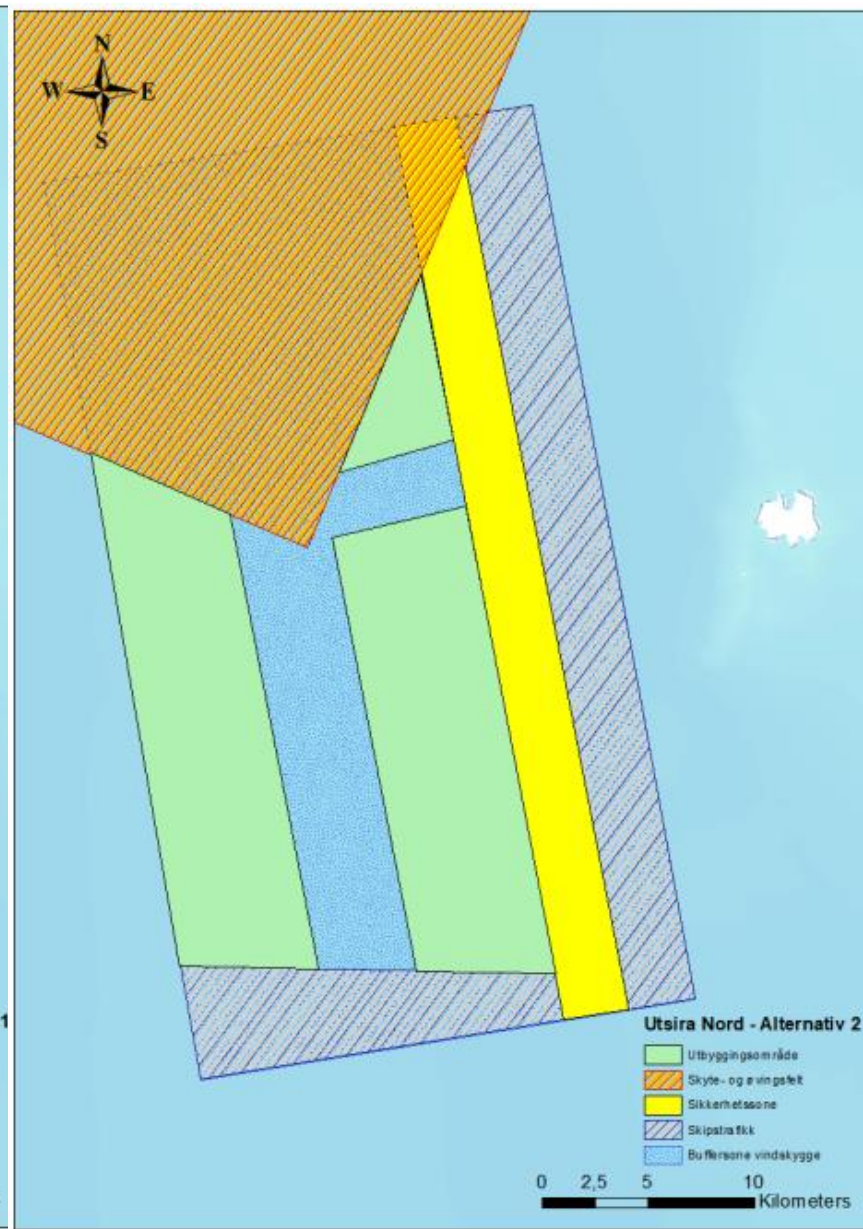

Deadline for the hearing 29 april 2022.

The decision on the division/design of the areas.

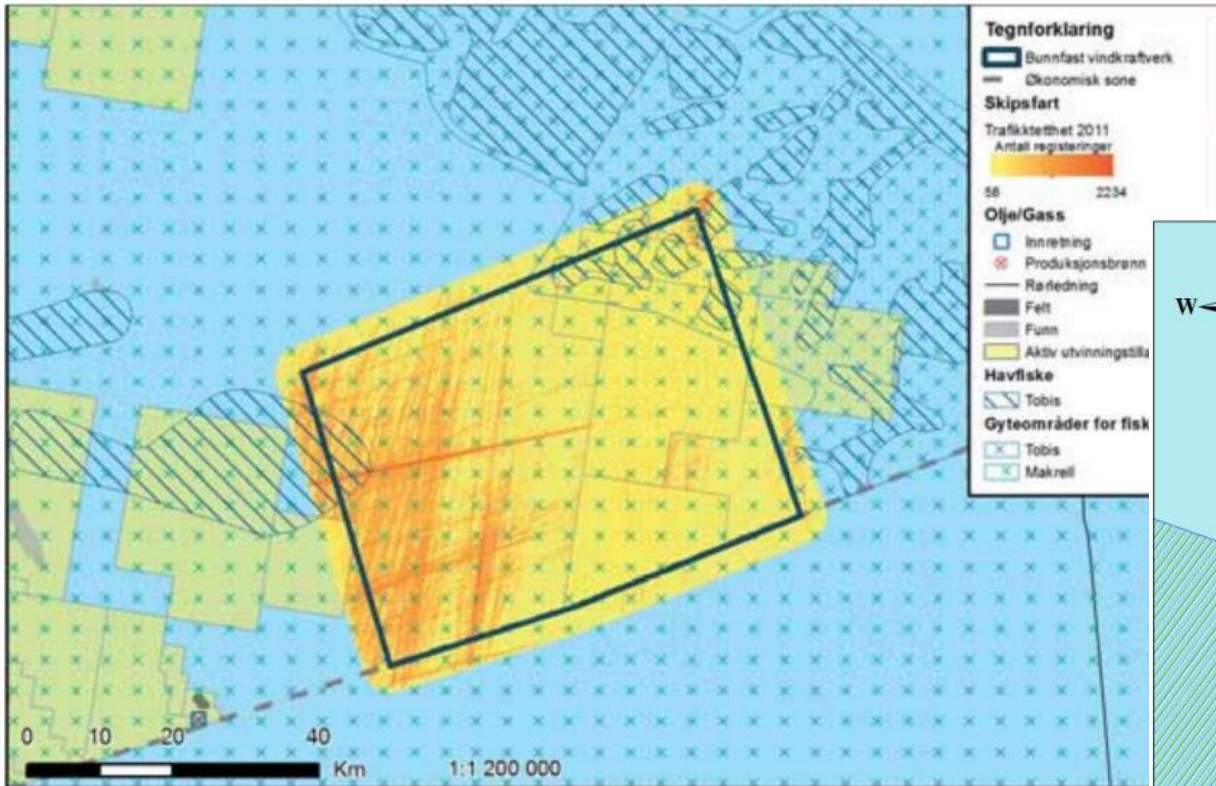

Utsira Nord maks 1500MW

For illustrations see: hoeringsnotat_inndeling-av-dei-opna-omrada-i-mindre-utlysingsomrade.pdf (regjeringen.no)

Sørlege Nordsjø II, maks 3000MW

What next?

Prequalification. Prekvalifisering: Prosess for utvelging av tiltakshavar(ar) som får delta.

The Government will move forward with the plans for regulatory changes needed for the auction solution and sea bed allocation process that were circulated for review in summer 2021. The Government will submit a proposal to the Storting in the course of spring 2022 for amendments to the Offshore Energy Act and the appurtenant regulations.

Allocation of areas: Auction(SNII)/qualitative evaluation(Utsira Nord). Utlysing av utlysingsområdet.

From the publication /høringsnotat:

Areas to be allocated will also be larger than the final project area for which the applicant is developing a license. The developer has no rights in the rest of the allocated area after the license has determined a delimited project area ».

Utlysingsområda vil også vere større enn det endelege prosjektområdet som utviklar søkar konsesjon for. Utviklar har ingen rettar i resten av utlysingsområdet etter at konsesjonen har fastsett eit avgrensa prosjektområde».
