## Symposium & Workshop in Systematic Review and Meta-analysis in Translational Preclinical Science

---

The Department of Clinical Medicine at Aarhus University invites you to a symposium and workshop on systematic review and meta-analysis of animal studies.

**The symposium** is suitable for all researchers within the field of experimental animal studies and clinicians who have an interest in translational medicine. You will obtain valuable information concerning how to move forward performing SRs and benefit from a fruitful debate amongst leading groups within this area of science. In addition the symposium will be very relevant for members of the national committee and local animal welfare bodies.

**The workshop** is suitable for all researchers within the field of translational medicine who would like to have a hands-on introduction to how to perform SRs

**Our goal with this symposium & workshop** is to stimulate to a discussion and co-operation on systematic review and meta-analysis of animal studies with the aim of improving science, fulfilling the 3Rs and obtaining a translational transparency of animal studies.
