

Research Seminars, Spring 2013 Tuesdays at 13:00

The seminars are an opportunity for students to present their research project. Master students should present twice during their 2-years study and it is compulsory to attend the seminars (for those of you who are not on leave for eg. fieldwork etc. or are attending other compulsory lectures at CIH). The two presentations, including attendance, are worth 6 credits. Each presentation should last about 15 minutes, followed by a discussion.

First year students are recommended to give their first presentation (of their protocol) during the spring semester and second presentation (of results) during the last semester. Students, supervisors and staff are encouraged to attend the seminars.

For tips on oral presentation, presenters are recommended to read, *"How to Write Publish a Scientific Paper"*, Robert A. Day, Ed. 5, Chapter 27, pp 167-172.

Date	Place	Presenter	Supervisor	Topic	Seminar Chair
2 April	5 th floor, ODH	Binod Parmar Linda Kampata	Torvid Kiserud Ingvild Sandøy	Differentiating Intrauterine-Growth Restriction in a referral Hospital in Nepal-Patan Hospital Individual and community level factors predicting condom use at last sexual encounter in the general population of a rural Zambian district	Thorkild Tylleskär
