RUSH UNIVERSITY

$3^{rd}$ **International Conference**

## Current Issues in Coincidence Analysis

**24 – 25 May, 2025, RUSH University, Chicago**

## Description

This is the third international conference dedicated exclusively to the configurational comparative method of Coincidence Analysis (CNA), which has seen a significant uptick in applications in recent years, particularly in public health. The conference provides a platform for exchange between CNA methodologists and applied researchers. The newest methodological advancements will be presented alongside exemplary applications and new developments on training opportunities.

## Program

| *Friday, 24 May 2024* | |
|---|---|
| 09:15 - 09:30 | **Welcome** |
| 09:30 - 10:30 | **Meghan Lane-Fall/Sapna Mendon-Plasek** (University of Pennsylvania/RAND): Systematic review of the use of Configurational Comparative Methods (including QCA and CNA) in the field of implementation science |
| 10:30 - 10:50 | Break |
| 10:50 - 11:50 | **Dennis H. Li/Alithia Zamantakis/Reiping Huang** (Northwestern University): Contextual factors predicting reach of a digital HIV intervention delivered by community-based organizations across the US |
| 11:50 - 13:00 | Lunch |
| 13:00 - 14:00 | **Pavel Svačina/Jonathan Freitas** (VSE Prague/Univ. of Minas Gerais): Do transaction costs or transactional value matter in technology licensing? Lessons learned from configurational causal modelling |
| 14:00 - 14:10 | Break |
| 14:10 - 15:10 | **Deborah Cragun/Nina Sperber** (Univ. of South Florida/Duke University): The value of contrapositive consistency and coverage in selecting among causal chain models explaining the adoption of pharmacogenetic testing for antidepressants |
| 15:10 - 15:30 | Break |
| 15:30 - 16:30 | **Luna De Souter/Michael Baumgartner** (Univ. of Bergen): Evaluating sufficiency and necessity in model building with Coincidence Analysis |
| 18:30 | Workshop Dinner |

| | |
|---|---|
| 09:30 - 10:30 | **Jessica Dodge** (VA Pittsburgh): Difference making implementation strategies for significant implementation: Coincidence Analysis on a global systematic review of implementation studies |
| 10:30 - 10:50 | Break |
| 10:50 - 11:50 | **Yinfei Duan** (Univ. of Alberta): Process and context factors contributing to or impeding successful implementation of a complex team-based behavioral intervention: a configurational analysis of the INFORM trial data |
| 11:50 - 13:00 | Lunch |
| 13:00 - 14:00 | **Martyna Swiatczak** (Univ. of Bergen): A comparative configurational analysis on the introduction of statutory minimum wage |
| 14:00 - 14:30 | Break |
| 14:30 - 15:30 | **Jonathan Freitas** (Univ. of Minas Gerais): Developing an online/hybrid course on CNA |
| 15:30 - 15:45 | **Closing** |
